Brief Description of Arguments to be Presented:

Differences between the cited reference and claimed invention. Cited reference is video camera hardware interface with color filters to generate color composite image.

Claimed invention is a software invention that operates in between the operating system and software drivers for the video display interface hardware. The software invention intercepts and modifies GDI data from the operating system and modifies (e.g. filters) the GDI data and passes the modified data to the display driver.

An interview was conducted on the above-identified application on _____.

NOTE:

This form should be completed by applicant and submitted to the examiner in advance of the interview (see MPEPE § 713.01).

This application will not be delayed from issue because of applicant's failure to submit a written record of this interview. Therefore, applicant is advised to file a statement of the substance of this interview (37 CFR 1.133(b)) as soon as possible.
